

Laser Energetics Introduces The Dazer Laser™ Light Fighting Technologies

Mercerville, NJ – May 27, 2009 – Laser Energetics, Inc. (Pink Sheets: [LNGT - News](#)) announced today that the Company has began rolling out the all new Dazer Laser™ Light Fighting Technologies – Non – Lethal Laser Weapon at the largest and longest running Memorial Day Parade in the United States ([memorialdayparade.org](#)). The parade included all branches of the military, police and fireman and had all levels of leadership including Generals. The closing of the parade was addressed by Mayor Michael Bloomberg. In honor of those who have sacrificed it all for their country, a new tool to fight our enemies and threats, was well received.

Robert D. Batts, Founder and CEO of Laser Energetics, stated, “This was the most appropriate place to begin our role out of the “Ultimate Non-Lethal Weapon” the “Dazer Laser™” Light Fighting Technologies. This life saving non-lethal weapon will help all branches of the military, law enforcement, correctional facilities, security, border patrol, piracy control, homeland security, airport security and much more. “This weapon is humanitarian and will save the lives of both the enforcer and the threat at longer ranges. No longer will the enforcer have to risk their lives to bring the threat in closer to them in order to engage them, which puts the enforcers life at risk”, says Batts. Because this weapon can be fired continuously, if the enforcer misses they can continue to aim the beam at the threats face until they hit the target, unlike other non-lethal weapons that have to be reloaded and only work at close range endangering the enforcer.

The two models being introduced are the Dazer Laser™ DEFENDER and the Dazer Laser™ GUARDIAN. These non-lethal weapons have the ability to control the threat at ranges of 1 meter to 2400 meters (model dependent). The Dazer Laser™ - Light Fighting Technologies - emit a green “eye safe” laser beam, that is shaped into approximately a 1 foot to 8 foot Dazer Zone™ (model dependent) which when focused on the threats eyes, the threats vision is temporarily impaired, their balance is effected, and they become affected by nausea. This controls the threat making it difficult for them to maneuver. The Ultimate Non – Lethal Weapon. Saving Lives – One DAZE at a Time™!
