

Laser Energetics' Dazer Laser™ Trademark Application Withstands Legal Challenge

Opposition Raised by Taser International is Terminated with Prejudice

MERCERVILLE, N.J., September 22, 2009 /PRNewswire-FirstCall/ -- Laser Energetics, Inc. (Pink Sheets: [LNGT](#) - [News](#)) today reported that its new **Dazer Laser™ Light Fighting Technologies** has withstood a challenge to its trademark application with the United States Patent and Trademark Office brought by Taser International, Inc. (Taser). Taser contended that Laser Energetics' application in the USPTO to register its "Dazer Laser" trademark should be rejected because the "Dazer Laser" mark was confusingly similar to Taser's family of "Taser" trademarks. Following a period of pretrial discovery and depositions in the USPTO proceeding, **Taser International terminated its opposition with prejudice.** The termination with prejudice now precludes Taser from challenging the registration of Laser Energetics' "Dazer Laser" trademark.

Robert D. Battis, CEO and Founder of Laser Energetics, stated, "We have maintained from the beginning of this action that the objections raised by Taser International were without merit. We expect to make a major impact on the law enforcement and military markets with our "Non-Lethal – Less Violent" Dazer Laser™ - Light Fighting Technologies, which we believe will replace many of the current Non-Lethal – More Violent close proximity weapons in use today. Having won this battle, we are continuing to move forward expeditiously to bring our products to the marketplace. We expect to be in a position to make some exciting new announcements in the very near future."

About Laser Energetics, Inc.: Laser Energetics has and continues to develop a comprehensive and strategic laser product line that addresses laser applications in Industry, Science, Medicine, Homeland Security and the Military. The Company has had a primary focus on its Alexandrite laser technology.

Safe Harbor: Statements regarding financial matters in this press release other than historical facts are "forward-looking statements" within the meaning of section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Securities Litigation Reform Act of 1995. The company intends that such statements about the Company's future expectations, including future revenues and earnings, technology efficacy and all other forward-looking statements be subject to the safe harbors created thereby. The Company is a development stage company who continues to be dependent upon outside capital to sustain its existence.
