

Laser Energetics Launches New Dazer Laser™ Video

Video Features Actual Use By Elite SWAT TEAM

Mercerville, NJ – November 17, 2009 – Laser Energetics, Inc. (Pink Sheets: [LNGT](#) - [News](#)) announced today that it has posted on its website and on YouTube a new video presentation showing an elite S.W.A.T. Team using the Dazer Laser in a demonstration.

The video was produced utilizing actual law enforcement and S.W.A.T. Team members from the northern New Jersey area. In addition, there is a Dazer Laser introduction video describing the Dazer Laser and how the enforcer uses it.

Robert D. Battis, Founder and Chief Executive Officer of Laser Energetics, stated, “The video was prepared to provide a simulation of an actual encounter between a perpetrator and law enforcement. As a result of being dazed by our Non-Lethal Light Fighting Technologies, the law enforcement agents were able to subdue the perpetrator with little effort and no physical harm to either the enforcement agents or the perpetrator. That is the exact value proposition we’ve presented to law enforcement agencies and militaries around the world: quick, safe, and non-lethal subjugation of a potential threat with no permanent damage to either the enforcer or the threat.”

Battis continued, “This value proposition has resulted in a large number of inquiries for the purchase of our Dazer Lasers™. As a result, our sales pipeline is very, very strong. As indicated in my most recent Founder’s Message, I anticipate announcing the closing of several new sales by year end.”

About Laser Energetics, Inc.: Laser Energetics has and continues to develop a comprehensive and strategic laser product line that addresses laser applications in Industry, Science, Medicine, Homeland Security and the Military. The Company has had a primary focus on its Alexandrite laser technology.

Safe Harbor: Statements regarding financial matters in this press release other than historical facts are "forward-looking statements" within the meaning of section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Securities Litigation Reform Act of 1995. The company intends that such statements about the Company's future expectations, including future revenues and earnings, technology efficacy and all other forward-looking statements be subject to the safe harbors created thereby. The Company is a development stage company who continues to be dependent upon outside capital to sustain its existence.
