

Laser Energetics Enters into Agreement with General Dynamics

Fortune 100 Company to Become Manufacturer of the Dazer Laser

Mercerville, NJ – June 17, 2010 – Laser Energetics, Inc. (Pink Sheets: [LNGT](#) - [News](#)) announced today that the company has contracted with General Dynamics Armament and Technical Products, a business unit of General Dynamics (NYSE: GD), for the manufacture of the Dazer Laser for Laser Energetics.

“This is one of the most important business developments in the history of our company,” stated Robert D. Battis, Founder and CEO of Laser Energetics. “It’s rare that a company of our size has the privilege to partner with a leading defense company like General Dynamics. Most importantly for shareholders, Laser Energetics no longer has to establish our own manufacturing facility for the Dazer Laser[™]. This is a huge benefit to shareholders and the Company in several ways. Laser Energetics will not have to raise millions of dollars on a dilutive basis to build out the high-quality production line that exists at General Dynamics Armament and Technical Products, and we will be able to ramp up production in lock-step with sales, helping to ensure our ability to meet customer demand in a timely fashion.”

Battis continued, “This manufacturing relationship will enable Laser Energetics to close sales with militaries and law enforcement agencies in the US and around the world much faster.”

About Laser Energetics:

Laser Energetics has and continues to develop a comprehensive and strategic laser product line that addresses laser applications in Industry, Science, Medicine, Homeland Security and the Military. The Company has had a primary focus on its Alexandrite laser technology

About General Dynamics Armament and Technical Products:
