

# **Laser Energetics announces its new Dazer Laser<sup>®</sup> STEALTH WARFIGHTER designed to protect and serve “America’s Best”...the brave Men and Women serving in the United States Armed Forces & Homeland Security**

MERCERVILLE, N.J., November 11, 2011 (GLOBE NEWSWIRE) -- **Laser Energetics, Inc.** (Pink Sheets: [LNGT](#) - [News](#)) is pleased to announce the creation of its all new Dazer Laser<sup>®</sup> STEALTH WARFIGHTER. This product was designed strictly for US Department of Defense and Homeland Security personnel only.

The Dazer Laser<sup>®</sup> STEALTH WARFIGHTER utilizes Laser Energetics’ unique patent-pending Variable Range and Focus<sup>™</sup> Technology, which allows the Warfighter to both SAFELY and EFFECTIVELY operate its Optical Distractor from 1-1000 meters. This results in total effective visual impairment at all ranges from 1-1000 meters. This is the ONLY way that the Warfighter cannot be seen by the person being dazed, unlike older outdated Fixed Focus Optical Distractors which cannot operate safely at close ranges or effectively at long ranges, thereby limiting the Warfighter’s “threat engagement range”, ultimately endangering the Warfighter. The Dazer Laser<sup>®</sup> STEALTH WARFIGHTER will not create any limitations and will allow our Warfighters to effectively operate at all ranges from 1-1000 meters, enhancing their capabilities, non-lethal warnings and/or enhancing lethality when threatened.

The Company’s Dazer Laser<sup>®</sup> Team recently attended the North American Technology Demonstration (NATD) Conference held in Ottawa Canada from October 25-27<sup>th</sup> which was comprised of NATO, US Military Forces, Canadian Military Forces, and many other countries with over 1000 attendees. On October 27, 2011, at the Connaught Ranges in Ottawa, Ryan Battis, Senior Director of Dazer Laser<sup>®</sup> Business Development, accompanied by Pete Wikul and Paul Marturano, demonstrated our Dazer Laser<sup>®</sup> GUARDIAN with its patent-pending Variable Range & Focus<sup>™</sup> Technology and was the only company able to SAFELY and EFFECTIVELY engage all targets from 5 meters out to 850 meters. The Company would have demonstrated even further distances, but was limited by the range!

“You know that all of the hard work, dedication and patience is paying off when you go out there and your demonstration speaks for itself. It’s flattering to have 11 different countries and organizations come up to us after our demonstration telling us we have the best product on the market and inquiring about our Products,” stated Ryan Battis, Senior Dir. of Business Development.

The Dazer Laser<sup>®</sup> STEALTH WARFIGHTER is far along in development and designed with many major features that will bring together multiple capabilities into one compact product. As a result, this system will bring about a weight savings of around 16 ounces when mounted to a Warfighters weapon. In addition, there are many features of the STEALTH that will provide simple and convenient operation. The Company’s DoD Team that is heavily engaged with multiple US Agencies is lead by Robert Battis (Founder, President & CEO) and comprised of Ryan Battis (Senior Dir. Dazer Laser<sup>®</sup> Business Development), and Senior Advisors - Retired Major General US Army John R. Hawkins III and Retired US Navy Captain Pete Wikul (Bullfrog 13 – Navy SEAL). Laser Energetics’ Dazer Laser<sup>®</sup> STEALTH WARFIGHTER with its Superior Design, Capabilities, Technology, and Team have created the most Versatile & Effective Optical Distractor in the world today with many additional capabilities. This is the best way our Team at Laser Energetics can say to our Veterans:

**Thank you for your service to our country. We thank God for You! You are the reason why the Dazer Laser<sup>®</sup> STEALTH WARFIGHTER was created - to help to protect you because we know:**

**It’s Easier to Defeat the Threat When They Cannot See You<sup>™</sup>!”**

Please visit LEI’s website ([www.laserenergetics.com](http://www.laserenergetics.com)) to see a photograph of the Dazer Laser<sup>®</sup> Stealth, and a special Poem called “America’s Best”. Thank you.

**About Laser Energetics:** The Company has a primary focus on its Dazer Laser<sup>®</sup> - Light Fighting Technologies, its Alexandrite Laser technology and its applications associated with Remote Sensing, Pill Marking, and Photo Acoustic Imaging, as well as its Total Reflectance Transmitter (TRT) technology. Laser Energetics has and continues to develop a comprehensive and strategic laser product line that addresses laser applications in Industry, Science, Medicine, Homeland Security and the Military. More information about the company is available on the Internet at our recently updated website: [www.laserenergetics.com](http://www.laserenergetics.com).

**Safe Harbor:** Statements regarding financial matters in this press release other than historical facts are "forward-looking statements" within the meaning of section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Securities Litigation Reform Act of 1995. The company intends that such statements about the Company's future expectations, including future revenues and earnings, technology efficacy and all other forward-looking statements be subject to the safe harbors created thereby. The Company is a development stage company who continues to be dependent upon outside capital to sustain its existence. Since these statements (future operational results and sales) involve risks and uncertainties and are subject to change at any time, the Company's actual results may differ materially from expected results.
