

Laser Energetics Sells Dazer Laser[®] to Mexico

MERCERVILLE, N.J., May 26, 2011 (GLOBE NEWSWIRE) -- **Laser Energetics, Inc.** (Pink Sheets:[LNGT](#) - [News](#)) is pleased to announce a new sales contract with General Security and Communications Corporation (GESECO). GESECO is a Mexico-based company whose mission is to bring integrated solutions supported with cutting edge technology into the Mexican market. GESECO has deep relations with Mexico's government and provides quality international equipment for the development of strategic and tactical operations for its Homeland Security Forces. The initial purchase for ten (10) Dazer Laser[®] Guardians will be used for testing and evaluation by various government agencies at both the local and federal levels. Once the testing and evaluation is complete a substantial order will be placed by GESECO for Mexico's Military, Law Enforcement, Prisons and Correction Agencies. The testing and evaluation from the Mexican government will be monitored by other Latin American Countries who will ultimately follow Mexico's lead in purchasing the Dazer Laser[®] for their own Homeland Security forces.

"Market acceptance of the Dazer Laser[®] continues to accelerate," stated Robert D. Battis, Founder, President & CEO of Laser Energetics, Inc. "We have demonstrated the effects of the Dazer Laser[®] to various governmental agencies around the world and the feedback has been very positive. They see the Dazer Laser[®] as a game-changing, tactic-enhancing solution."

"On another note," said Battis, "we expect to make additional announcements in the near future regarding several substantial orders placed by governments around the world. Most everything about the profile of the Company will change for the positive upon receipt of these orders. Our moment is now, and we are seizing these opportunities with both hands. I believe that today's press release is just one of many sales announcements we will be making over the coming months."

About Laser Energetics: The Company has a primary focus on its Dazer Laser[®]-- Light Fighting Technologies, the "Ultimate Non-Lethal -- Less Violent^(R)" Weapons Serving Humanity, its Alexandrite Laser technology and its applications associated with Remote Sensing, Pill Marking, and Photo Acoustic Imaging.
